Important To is about what really matters to the person, from their perspective, includes those things which help the person to be satisfied, content, comforted and happy. **Important For** is about the help or support that they need to stay healthy, safe and well. Use this tool to separate what is important to and what is important for the person. The person centered service plan should include strategies to ensure that what is important to and for the person are present in daily life and supports.
