

Procedure Fee Audit Trail

Downloads available in Comma Separated Value (csv) Format or Text (txt) Format.

The Audit Trail report contains a cumulative history of rate changes for procedure codes. The audit trail shows a record with the original rate information for each procedure code and the corresponding record with the updated rate information for each procedure code dated with the timestamp of the change. This file will be updated on the same schedule as the current procedure fee file. The cumulative history file of rate changes will be purged on a quarterly basis.
