What is Measured in Each Performance Area?

Doctors' Communication

- Doctors explain things well to members
- How happy members are with their doctors

Getting Care

- Members get the care they need, when they need it
- Members with behavioral health conditions get the follow-up care they need

Keeping Kids Healthy

- Children get regular checkups and important shots that help protect them against serious illness
- Children on antipsychotics get appropriate treatment

Living With Illness

- Members with asthma, diabetes, high blood pressure, and depression get the care they need by getting tests, checkups, and the right medicine

Taking Care of Women

- Women get tests for breast and cervical cancer to help find these diseases early
- Moms get care before and after their baby is born to help keep mom and baby healthy

Choosing a Medicaid Managed Care Organization

Your health care is important, and choosing the Medallion 4.0 MCO that best meets your needs is also important. Here are some questions to ask yourself before you pick a Medallion 4.0 MCO:

About This Tool

The 2022–2023 Virginia Medallion 4.0 MCO Consumer Decision Support Tool utilizes results from Healthcare Effectiveness Data and Information Set (HEDIS®) and Consumer Assessment of Healthcare Providers and Systems (CAHPS®). Calendar year 2021 data were used to derive 2022 reporting year rates. This report was compiled by Health Services Advisory Group, Inc. (HSAG) in collaboration with the Department of Medical Assistance Services (DMAS).

About the Accreditation Levels

Accreditation levels as of September 2022 are based on compliance with the National Committee for Quality Assurance's (NCQA's) rigorous requirements and the MCOs performance on HEDIS® measures. The highest level of accreditation an MCO can receive is Accredited, followed by Provisional. For more information regarding accreditation levels as of September 2022, visit: www.ncqa.org/wp-content/uploads/2020/09/20200915_HPA_Advertising_and_Marketing_Guidelines.pdf.
